### More than a faucet

Tiaara is a unique combination of effortless functionality within a stunning form. Designed like a piece of jewellery with echoing ovals, it is a faucet that brings a unique sculptural quality to a commonplace function and elevates its usage into a memorable experience.

**Tiaara. Jewellery for the bathroom.**

### Designed by Michael Foley

“The attempt was to build a powerful metaphor to experience design, abstracting functionality into a simple act - elevating conventional usage into something unique and desirable.”

“Tiaara is a perfect balance of handcrafted and machine made processes. Its segmented assemblies allow for ease of manufacture and access to refined hand polishing of every surface.”

### A loop to go with the flow

The position of the Tiaara's inner loop determines the temperature of water and the amount that flows. A simple arc of movement provides every flow rate and temperature needed.

A close-up photograph of a modern, sleek faucet. The faucet is white and has a curved, aerated spout. Water is flowing from the spout, creating a soft, white spray. The background is a solid, light gray color. A red curved line is visible on the left side of the image, pointing towards the faucet's handle area.

### Usage made desirable

Redefining the method of dispensing water, Tiaara's lever is an integral part of the faucet, and intuitive to hold and swing out.

A modern bathroom with a dark, textured wall and ceiling. The shower area on the left features a sleek, minimalist showerhead and controls. In the center, a white, oval-shaped bathtub is set against a wall with a geometric, faceted pattern. To the right, a white, oval-shaped vanity sink is mounted on a dark, angular vanity unit. A circular mirror with a glowing yellow border is positioned above the sink. The floor is dark and reflective, and the overall lighting is dim and atmospheric.

### A complete ensemble

To provide a consistent aesthetic for the entire bathroom, Tiaara is available in a complete ensemble that carries its silhouette across other fixtures for the bathroom.
