

STYLE MANTRA

TILES

Orient Bell Limited offers GVT wall tiles that have less water absorption and moisture expansion than basic ceramic wall tile, making it more suitable for frost areas. The high strength in GVT is also less prone towards breakage.

BATHROOMS

Jaquar Group has launched TumbleRain under its Artiza brand. The 'Automated Tumbling' feature lets the high mounted bucket fill automatically every few seconds and empties itself over you. To ensure perfect hygiene in the system, it is equipped with functions to check the presence and growth of bacteria.

CARPETS

Obeetee, the manufacturer of hand-knotted and hand-tufted rugs has unveiled its Amer collection, drawing inspiration from the motifs and patterns of the engraved walls of the famous monuments of the royal city, Jaipur. A character of the old and the new is seamlessly layered with areas that are washed out alongside defined motifs.
